## Descripción proporcionada por fabricante

The Elan E4 has once again consolidated Elan's reputation as a builder of exciting performance cruising capabilities are left to compromise. In addition to her elegant and sporty design, she features integrated new rotating plotter pods on the steering consoles, for total control over the elements. Her wide transom, provides control even at high heel angles. Her T-shaped keel ensures a lower center of gravity and improved righting would otherwise be possible. The end result provides an exhilarating sailing performance, which one would best feature yet is how effortless she is to sail, even in challenging conditions.

## Renuncia personalizada
